

*Please sign our Pledge to Act. We will help you fulfill your pledge.*

*If we speak with one voice, if we work together, we can help reduce human suffering and change the world.*

**I pledge, in the next 12 months, to take at least two of these actions to advance and protect embryonic stem cell research.**

- I will attend State of Stem Cell Advocacy Forum in April 2008.**
- I will volunteer at State of Stem Cell Advocacy Forum in April 2008.**
- I will join the Speaker Network.** I will receive training and messaging and then go out and spread the word about the incredible potential and promise of this research.
- I will act on each action alert you send me.**
- I will attend at least one Online Night School Session (coming in 2008).**
- I will donate to Americans for Cures Foundation.**
- I will ask my family and friends to sign this pledge.**
- I will contact my legislators and ask them to support all forms of stem cell research.** This includes my local leaders as well as state and national leaders.
- I will volunteer and vote for Campaigns that support all forms of stem cell research.**
- I will make sure I have the facts about stem cell research.** I will look to Americans for Cures Foundation website for accurate information.
- I will only support charities that support all forms of stem cell research.** If I regularly donate to an organization that should have a policy supporting stem cell research and it does not, I will ask them to change or create the policy and inform them that they will lose my donations next year if they do not support all forms of stem cell research.
- I will write one stem cell support letter.** I can write to my legislators or write letters to editors.
- I will volunteer to table at public events in my area.**
- I will host a fundraiser for Americans for Cures Foundation.** I will remember to ask for support from my local businesses.
- I will organize an educational event in my area.** I will remember to ask for support from my local businesses.
- I will provide accurate stem cell research information to organizations and groups to which I belong.** I will offer to speak to them about it or to arrange to bring a stem cell research speaker in to discuss it.
- I will respond to stem cell research news.** If I read an article that is misleading, I will write to the author to clarify the facts. I will consider writing a letter to the editor as well. If I read a particularly helpful article, I will do the same to express my thanks for the accuracy and fairness.
- I will get the press to tell my story.** I will contact my local cable stations, Current TV, and/or newspapers and ask them to help people understand the difficulty of living with chronic conditions and the hope of stem cell research.
- I will download this form and collect more pledges.** I will mail the completed forms to Americans for Cures at 550 S. California Ave, #330, Palo Alto, Ca, 94306 or fax them to 650-833-0105. (\*=required fields)
